<p>We had numerous setbacks the last few months and it is getting to us. We got slapped by Vodacom a few months ago with a R16000 bill and we have been paying huge amounts every month ever since. my wife had to have a serious operation that cost us R63000. we didnt have any medical. she worked at a friends salon but all the promises were just air. this caused us to get into debt via loans and this is killing us now. she was hijacked two weeks ago. she is busy trying to get a business start up but now we found out that someone committed ID fraud on her now for thousands and thousands, just over three years ago. If she doesnt get the start up we are not going to handle all this. i dont earn millions, one salary to pay for everything is very hard. My father in law of 82 is also staying with us as he is very old and weak so we look after him too. i know God's promises and blessings and have faith in it all. It just feels like we are drowning. please pray for all this. if she can get the start up, it will all be fine financially as we can then get out of debt immediately. i am a strong person, but this is getting very heavy... thank you so much.</p>	<p>Dirk Mc Kenzie</p>
